

(Abstract)

FYUGP -Modified Scheme (All semesters) & First Semester syllabus of B.Sc. Forestry Programme -
Approved & Implemented w. e. f . 2025 Admission- Orders Issued

ACADEMIC C SECTION

ACAD C/ACAD C3/23394/2024

Dated: 01.02.2025

Read:-1. U.O. of even number dated 11/11/2024

2. E-mail of the Chairperson, Board of Studies in Forestry (Cd), dated: 31/12/2024
3. The Minutes of the Meeting of the Board of Studies held on 31/12/2024
4. Email dated 09/01/2025 from Dr S Sudheesh, Dean, Faculty of Science
5. Email dated 20/01/2025 from the Chairperson, Board of Studies in Forestry (Cd)
6. Minutes of the meeting of the Standing Committee of the Academic council dated 21/01/2025
7. The Orders of the Vice Chancellor in File No. ACAD C/ACAD C3/23394/2024 dtd.01/02/2025

ORDER

1. The Scheme (All semesters) and Syllabus (First & Second Semester only) of the B.Sc. Forestry (FYUGP) Programme was approved vide the paper read (1) above.
2. Subsequently, as per the paper read (2) above, the Chairperson, Board of Studies in Forestry (Combined) submitted the Modified Scheme (All Semesters) and the Syllabus of the First Semester B.Sc. Forestry Programme to be implemented in affiliated colleges w.e.f. 2025 admission along with the Minutes of the Meeting of the Board of Studies (paper read 3), approving these modifications.
3. Thereafter, the Modified Scheme (All Semesters) and the Syllabus of the First Semester B.Sc. Forestry Programme to be implemented in Affiliated colleges w. e. f. 2025 admission was forwarded to the Dean, Faculty of Science for verification.
4. The Dean, vide paper read (4) above suggested certain Modifications and the Chairperson, vide paper read (5) above, forwarded the Modified Scheme (All Semesters) and the Syllabus of the First Semester B.Sc. Forestry Programme (2025 admission) after incorporating the Modifications suggested by the Dean, Faculty of Science.
5. Considering the matter the Vice Chancellor has ordered to place the same before the Standing Committee of the Academic Council for consideration and the Standing Committee of the Academic Council vide paper read (6) above recommended to approve the modified Syllabus of the First Semester B.Sc. Forestry Programme (2025 admission).
6. The Vice Chancellor, ***in tune with the Recommendation of the Standing Committee of the Academic Council and exercising the powers of the Academic Council conferred under Section 11 (1) chapter III of Kannur University Act 1996, approved the Modified Scheme (All Semesters) and the Syllabus of the First Semester of the B.Sc. Forestry (FYUGP)***

Programme, and accorded sanction to implement the same in the Affiliated Colleges w.e.f. 2025 admission.

7. The Modified Scheme (All Semesters) and the Syllabus of the First Semester B.Sc. Forestry programme (FYUGP) to be implemented in the Affiliated Colleges w.e.f. 2025 admission are appended with this U.O. and uploaded in the official website of the University.

Orders are issued accordingly.

SYLLABUS FOR
**FOUR YEAR UNDER GRADUATE PROGRAMME
(FYUGP) IN FORESTRY**
(2025 Admission onwards)

Foreword

The Four-Year Undergraduate Programme (FYUGP) in Forestry is undergoing significant changes to better meet the needs of students, industries, and society. Education is seen as vital, and it's essential that the courses offered reflect the demands of the modern world. This means regularly updating the curriculum to keep pace with changes in society and the economy.

It is crucial for higher education to equip students with practical skills that are directly relevant to their chosen fields. However, despite the increasing number of people attending college, there are concerns about whether the education they receive adequately prepares them for the workforce. This is particularly true when it comes to skills that employers are looking for.

As our world becomes more interconnected and fast-paced, it's essential for educational institutions to evolve and teach students the skills they need to succeed in the 21st century. This includes not only technical skills but also critical thinking, communication, and adaptability. In the field of forestry, there is an urgent need to focus on forest conservation, biodiversity preservation, and sustainable management of forest resources. The curriculum must address these critical issues to prepare students to tackle the environmental challenges of our time. Topics such as ecosystem services, climate change mitigation, and the socio-economic aspects of forest management are essential components of a modern forestry education.

The government of Kerala is taking proactive steps to improve higher education by setting up commissions to recommend changes to policies, regulations, and evaluation systems. These efforts include a focus on integrating forest conservation principles into the educational framework.

As part of these efforts, the undergraduate curriculum, including the FYUGP in Forestry, is being restructured to better align with the goals of creating a knowledgeable society capable of driving sustainable development. These changes aim to ensure that higher education remains relevant and beneficial for both students and society as a whole, fostering a new generation of forestry professionals equipped to protect and manage our vital forest resources.

Aneesh K S,
Chairperson,
BoS, UG Forestry

Preamble

Welcome to the Four-Year Undergraduate Programme (FYUGP) in BSc Forestry at Kannur University. This syllabus has been carefully crafted to provide students with a comprehensive understanding of the vital field of forestry while equipping them with the necessary skills to thrive in today's dynamic environment.

Forestry, the science and art of managing forests, trees, and related natural resources, is a field of immense importance for ecological balance, biodiversity conservation, and sustainable development. As we witness rapid advancements in science and technology, the study of forestry continues to evolve, presenting new opportunities and challenges.

This syllabus aims to blend theoretical knowledge with practical applications, offering students a well-rounded education that prepares them for both academic pursuits and professional endeavours. Through a combination of classroom lectures, laboratory experiments, fieldwork, and research projects, students will delve deep into the intricate world of forest biology, exploring topics such as forest ecology, silviculture, forest management, conservation biology, wildlife management, and environmental policy.

At Kannur University, we are committed to providing our students with a stimulating learning environment that fosters curiosity, critical thinking, and a passion for discovery. We encourage active participation, independent thinking, and collaborative learning, ensuring that our graduates emerge as confident and competent individuals ready to make meaningful contributions to society.

This syllabus represents our dedication to academic excellence, innovation, and continuous improvement. We believe that by nurturing a deep appreciation for forests and natural resources and instilling a sense of responsibility towards environmental stewardship, our students will become future leaders who can address the pressing challenges facing our planet, including climate change, deforestation, and biodiversity loss.

We extend our best wishes to all students embarking on this educational journey and trust that their time spent studying forestry at Kannur University will be enriching, rewarding, and transformative.

KANNUR UNIVERSITY

Vision and Mission Statements

Vision: To establish a teaching, residential and affiliating University and to provide equitable and just access to quality higher education involving the generation, dissemination and a critical application of knowledge with special focus on the development of higher education in Kasaragod and Kannur Revenue Districts and the Manandavady Taluk of Wayanad Revenue District.

Mission:

- To produce and disseminate new knowledge and to find novel avenues for application of such knowledge.
- To adopt critical pedagogic practices which uphold scientific temper, the uncompromised spirit of enquiry and the right to dissent.
- To uphold democratic, multicultural, secular, environmental and gender sensitive values as the foundational principles of higher education and to cater to the modern notions of equity, social justice and merit in all educational endeavours.
- To affiliate colleges and other institutions of higher learning and to monitor academic ethical, administrative and infrastructural standards in such institutions.
- To build stronger community networks based on the values and principles of higher education and to ensure the region's intellectual integration with national vision and international standards.
- To associate with the local self-governing bodies and other statutory as well as nongovernmental organizations for continuing education and also for building public awareness on important social, cultural, and other policy issues.

BOARD OF STUDIES - FORESTRY (UG)

| Chairperson | | |
|-------------------------|---------------------------|--|
| 1 | Aneesh K S | Assistant Professor, Department of Forest Resource Management, College of forestry, Vellanikkara, KAU. |
| Members | | |
| 2 | Aparna P | Assistant Professor, Department of Botany, Sree Narayana College, Kannur. |
| 3 | Resmi P Thomas | Assistant Professor, Department of Botany, Sree Narayana College, Kannur. |
| 4 | Malik Fasil M | Assistant Professor, Department of Wildlife Science, College of forestry, Vellanikkara, KAU. |
| 5 | Dr. Ganesh Gopal T M | Assistant Professor, Department of Wood Science and Technology, Mangattuparamba Campus, Kannur University. |
| 6 | Dr. Manoj K | Assistant Professor, Department of Environmental Studies, Mangattuparamba Campus, Kannur University. |
| 7 | Dr. P Balakrishnan Peroth | Sr. Scientist, Department of Wildlife Biology, Kerala Forest Research Institute, Thrissur. |
| 8 | Dr. Amruth M | Sr. Scientist, Department of Sociology, Kerala Forest Research Institute, Thrissur. |
| 9 | Dr. Santhosh Sreevihar | Assistant Professor, Department of Zoology, Malabar Christian College, Calicut. |
| 10 | Dr. Suresh V | Assistant Professor, Department of Botany, Govt. Victoria College, Palakkad |
| 11 | Dr. Sreenivasan E | Industrial Expert, Head R & D, The western India Plywood Ltd. |
| Special Invitees | | |
| 12 | Sneha C, | Assistant Professor, Department of Forestry, Sir Syed College, Taliparamba |
| 13 | Azhar Ali A | Assistant Professor, Department of Forestry, Sir Syed College, Taliparamba |

FYUGP BSc FORESTRY ADHOC COMMITTEE

| | | |
|----|-----------------------------------|---|
| 1 | Prof. S Sudheesh (Chairperson) | Dean, Faculty of Science |
| 2 | Sneha C, (Convener) | Assistant Professor, Department of Forestry, Sir Syed College, Taliparamba |
| 3 | Aneesh K S | Assistant Professor, Department of Forest Resource Management, College of forestry, Vellanikkara, KAU. |
| 4 | Malik Fasil M | Assistant Professor, Department of Wildlife Science, College of forestry, Vellanikkara, KAU. |
| 5 | Azhar Ali A | Assistant Professor, Department of Forestry, Sir Syed College, Taliparamba |
| 6 | Dr. Ganesh Gopal T M | Assistant Professor, Department of Wood Science and Technology, Mangattuparamba Campus, Kannur University. |
| 7 | Dr. Manoj K | Assistant Professor, Department of Environmental Studies, Mangattuparamba Campus, Kannur University. |
| 8 | Dr. P Balakrishnan Peroth | Sr. Scientist, Department of Wildlife Biology, KFRI, Thrissur. |
| 9 | Dr. Amruth M | Sr. Scientist, Department of Sociology, KFRI, Thrissur. |
| 10 | Dr. Santhosh Sreevihar | Assistant Professor, Department of Zoology, Malabar Christian College, Calicut. |
| 11 | Dr. Suresh V | Assistant Professor, Department of Botany, Govt. Victoria College, Palakkad |

KANNUR UNIVERSITY

UG PROGRAMME OUTCOMES (PO)

| | |
|------------|--|
| PO1 | Critical Thinking |
| 1.1 | Acquire the ability to apply the basic tenets of logic and science to thoughts, actions, and interventions. |
| 1.2 | Develop the ability to chart out a progressive direction for actions and interventions by learning to recognize the presence of hegemonic ideology within certain dominant notions. |
| 1.3 | Develop self-critical abilities and also the ability to view positions, problems, and social issues from plural perspectives. |
| PO2 | Effective Citizenship |
| 2.1 | Learn to participate in nation-building by adhering to the principles of sovereignty of the nation, socialism, secularism, democracy, and the values that guide a republic. |
| 2.2 | Develop and practice gender sensitive attitudes, environmental awareness, empathetic social awareness about various kinds of marginalization and the ability to understand and resist various kinds of discrimination. |
| 2.3 | Internalize certain highlights of the nation's and region's history. Especially of the freedom movement, the renaissance within native societies and the project of modernization of the postcolonial society. |
| PO3 | Effective Communication |
| 3.1 | Acquire the ability to speak, write, read, and listen clearly in person and through electronic media in both English and in one Modern Indian Language |
| 3.2 | Learn to articulate, analyse, synthesise, and evaluate ideas and situations in a well-informed manner. |
| 3.3 | Generate hypotheses and articulate assent or dissent by employing both reason and creative thinking. |
| PO4 | Interdisciplinarity |
| 4.1 | Perceive knowledge as an organic, comprehensive, interrelated, and integrated faculty of the human mind |
| 4.2 | Understand the issues of environmental contexts and sustainable development as a basic interdisciplinary concern of all disciplines. |
| 4.3 | Develop aesthetic, social, humanistic, and artistic sensibilities for problem solving and evolving a comprehensive perspective |

FYUGP IN FORESTRY

PROGRAMME SPECIFIC OUTCOMES (PSOS)

After successful completion of four-year UG programme in Forestry, a student should be able to:

| | |
|--------------|--|
| PSO 1 | Demonstrate a deep understanding of forest ecosystems, including the interactions between biotic and abiotic components, ecological succession, and the role of forests in global biogeochemical cycles. |
| PSO 2 | Implement and manage sustainable forestry practices, ensuring the balance between economic, ecological, and social values in forest resource utilization and conservation. |
| PSO 3 | Utilize advanced tools and technologies such as Geographic Information Systems (GIS), remote sensing, and drone technology for forest inventory, mapping, monitoring, and management. |
| PSO 4 | Plan and execute wildlife management and habitat conservation strategies, ensuring the protection and restoration of biodiversity within forest ecosystems. |
| PSO 5 | Engage in participatory approaches to forestry that involve local communities, fostering collaboration and integrating traditional knowledge with scientific practices for sustainable forest management. |
| PSO 6 | Effectively communicate forestry-related issues to diverse audiences, advocating for sustainable forestry practices and raising awareness about the importance of forests in addressing environmental and societal challenges. |
| PSO 7 | Promote a sense of environmental stewardship, fostering a positive vision for utilizing forests to combat global challenges, including climate change. |

DSC - Discipline Specific Pathway components (Major/Minor); DSE - Discipline Specific Pathway components (Elective); DCC - Discipline Specific Capstone Components; DCE - Discipline Specific Capstone Components (Elective); AEC - Ability Enhancement courses; SEC - Skill Enhancement Courses; VAC - Value Addition Courses; MDC - Multi-disciplinary Courses.

Course Distribution for Students in the Fourth Year of KUFYUGP

*(i) Three PG level core courses (level 400 & above) in the Major discipline (for Honours); or (ii) Combination of Major core courses of level 400 & project up to 12 credits in the Major discipline (for Honours); or (iii) One 12-credit Research Project in the Major discipline (for Honours with Research) (iv) In the case of Honours students who go to another institution for doing the Project, the remaining Major core course can be in the online mode or in the in-person mode from the institution where the Project is being done. **AND***

(i) Three Minor Pathway Courses of level 300 & above / level 400 & above; or (ii) Three Elective Courses in Major discipline of level 400 & above; or (iii) Two courses in Minor discipline + One course in Major / any other discipline; or (iv) Three Courses in any other discipline of level 300 & above / level 400 & above; or (v) Two courses in Major / Minor / any other discipline + One course in research methodology (vi) Two of these courses can be in the online mode. These online courses can be taken either in semester VII or in semester VIII, but their credits shall be added to the student's account only in semester VIII. (vii) For those students who go to another institution for doing the Project, all these

three courses can be in the online mode or in the in-person mode from the institution where the Project is being done.

KU1DSCFOR101 FOREST AND FOREST ECOLOGY

| | | | Marks Distribution- Practical | | | |
| | | | 10 | 15 | 25 | |

Course Description: This course offers an in-depth exploration of forests, forestry, and ecological principles, focusing on biomes, forest types, and their management. Students will examine the characteristics of various biomes, with special emphasis on forest ecosystems. The course also delves into the historical and contemporary aspects of forestry, particularly in India and Kerala, and covers ecological principles and succession theories relevant to forest management. Through theoretical learning and practical exercises, students will gain a comprehensive understanding of forest ecology, biodiversity, and sustainable management practices.

Course Prerequisite

- Basic knowledge in Ecology at 10th level, Ability to write examinations in English.

Course Outcomes:

| CO No. | Expected Outcome | Learning Domains |
|--------|--|------------------|
| 1 | Explain the various definitions and classifications of forests based on regeneration methods, age, composition, management objectives, growing stock, ownership, and legal status. | U |
| 2 | Apply classification systems, such as Champion & Seth's revised classification, to identify forest types in India and Kerala. | A |
| 3 | Analyze the structure and function of forest ecosystems, including | An |

| | | |
|---|--|----------|
| | energy flow, nutrient cycling, and succession processes. | |
| 4 | Assess the impact of global climate change on forests and the role of forests in carbon sequestration and climate change mitigation. | E |
| 5 | Develop sustainable forest management and conservation strategies that consider both local and global contexts. | © |

| M O D U L E | U N I T | DESCRIPTION |
|----------------------------|------------------|---|
| | | MODULE TITLE: INTRODUCTION TO WORLD FORESTS (20 Hours) |
| 1 | 1 | Biomes of the world- Biotic and abiotic characteristics |
| | | a) Tundra |
| | | b) Temperate Coniferous Forests |

| | | |
|---|--|--|
| | | c) Deciduous Forests |
| | | d) Tropical Rain Forests |
| | | e) Grasslands |
| | | f) Deserts |
| | | g) Water biomes |
| | 2 | Temperate and Tropical Forests- Comparison |
| | 3 | Forest: various definitions |
| | 4 | Classification of forests based on |
| | | a) Method of regeneration |
| | | b) Age |
| | | c) Composition |
| | | d) Objects of management |
| | | e) Growing stock |
| | | f) Ownership |
| | | g) Legal status |
| | MODULE TITLE: FORESTRY AND STATE OF FOREST (20 Hours) | |
| | 1 | Definition, History, and Development of Indian Forestry |
| 2 | 2 | Branches of Forestry and their relationships |
| | 3 | Forest types in India and Kerala: systems of classification |
| | 4 | State of the forests: global, Indian, and Kerala scenario |
| | 5 | Distribution, species composition, and characteristic features of forests with special reference to Kerala |
| | | a) Evergreen forests |

| | | |
|---|---------------|--|
| | | b) Deciduous forests |
| | | c) Shola forests |
| | | d) Mangroves |
| | | e) Myristica swamp forests |
| MODULE TITLE: BASICS OF ECOLOGY (15 Hours) | | |
| 3 | 1 | Levels of biological organization – abiotic and biotic components and their interaction. |
| | 2 | Trophic levels, food chains, ecological pyramids and energy flow. |
| | 3 | Forest Ecology – Forest ecosystem, structure and dynamics. |
| | 4 | Horizontal and vertical stratification. |
| | 5 | Formation of forest communities |
| | | a) Consociation |
| | | b) Association |
| MODULE TITLE: Ecological Succession (15 Hours) | | |
| 4 | 1 | Succession Types |
| | | a) Primary and Secondary Succession |
| | | b) Autogenic and Allogenic Succession |
| | | c) Xerarch and Hydrarch |
| | 2 | Causes of succession |
| | 3 | Forest succession and climax vegetation types |
| | 4 | Succession theories |
| | a) Monoclimax | |

| | |
|---|--|
| | b) Polyclimax |
| | c) Mosaic theory |
| 5 | Models of succession |
| Teacher Specific Module (5 Hours) | |
| <i>Directions: This module is a list of suggested activities that helps to achieve the aim, objectives and outcome of the course; which will be determined by the concerned teacher. Assessment for this module is strictly internal.</i> | |
| 5 | <p>5.1 Visit a local biome (e.g., a forest, grassland, or wetland) to observe and document biotic and abiotic factors.</p> <p>5.2 Collect soil, water, and plant samples from different biomes for laboratory analysis of physical and chemical properties.</p> <p>5.3 Use microscopes to examine soil microorganisms from different biomes.</p> <p>5.4 Collect data on temperature, humidity, soil composition, and biodiversity from both temperate and tropical forests.</p> <p>5.5 Assess species composition in different forest types using quadrat sampling.</p> <p style="text-align: center;">Space to fill the selected area/ activity</p> |

| Continuous Evaluation | | 10 |
| a) | Test Paper | 4 |
| b) | Practical Record and Submissions | 4 |
| c) | Viva-Voce | 2 |
| Total | | 25 |

Sample questions to Test Outcome

2 Mark Questions

1. Compare and contrast the abiotic factors of tundra and tropical rain forests.
2. Explain the main differences between temperate and tropical forests in terms of biodiversity and climate.
3. Apply Champion & Seth's classification to identify and describe the main forest types in Kerala.
4. Describe the characteristic features and species composition of Myristica swamp forests in Kerala.

6 Mark Questions

1. Analyze the structure and dynamics of a temperate forest ecosystem.
2. Explain the difference between consociation and association in the formation of forest communities.
3. Identify and discuss the primary causes of ecological succession in forests.
4. Compare and contrast monocl原因 and polyclimax theories of succession.

14 Mark Questions

1. Develop a sustainable forest management strategy for a deciduous forest in India, considering both local and global contexts.
2. Assess the impact of global climate change on tropical rain forests and their role in carbon sequestration.

Employability for the Course:

- Environmental Educator
- Conservation Scientist
- Environmental Consultant
- Ecologist

KU1DSCFOR102 INTRODUCTION TO FOREST RESOURCES

| Semester | Course Type | Course Level | Course Code | Credits | Total Hours |

| 3 | 1 | | 25 | 50 | 75 | 2 |
| | | | Marks Distribution- Practical | | | |
| | | | 10 | 15 | 25 | |

Course Description: Introduction to Forest Resources is a foundation course offering an in-depth examination of the ecological, social, and economic significance of forest ecosystems. Students will explore the multifaceted roles of forests in biodiversity conservation, climate regulation, and sustainable development while also addressing the myriad threats they face, including deforestation and habitat degradation. Through interdisciplinary study, students will learn about the principles and practices of sustainable forest management, conservation strategies, and the integration of indigenous knowledge systems. Emphasizing a holistic approach, the course will equip students with the knowledge and skills necessary to contribute to the preservation and responsible stewardship of forest resources on a global scale.

Course Prerequisite:

Basic knowledge in Biology at 10th level, Ability to write examinations in English.

Course Outcomes:

| CO No. | Expected Outcome | Learning Domains |
|--------|--|------------------|
| 1 | Identify the key characteristics and distribution patterns of different forests | R |
| 2 | Apply knowledge of forest biomes to analyze and predict the distribution of specific species. | A |
| 3 | Analyze the interconnectedness of these ecological services and their importance for ecosystem health. | An |
| 4 | Evaluate the adaptive strategies of flora and fauna in evergreen | E |

| | | |
|--|------------------------|--|
| | and deciduous forests. | |
|--|------------------------|--|

Assessment Rubrics:

| Evaluation Type – Theory | | Marks |
|---------------------------------|---|--------------|
| End Semester Evaluation | | 50 |
| Continuous Evaluation | | 25 |
| a) | Test Paper- 1 | 10 |
| b) | Test Paper-2 | 10 |
| c) | Assignment/Seminar/ Book/ Article Review/Field Report | 3 |

| | | |
|--------------|-----------|-----------|
| d) | Viva-Voce | 2 |
| Total | | 75 |

| Evaluation Type – Practical | | Marks |
|------------------------------------|----------------------------------|--------------|
| End Semester Evaluation | | 15 |
| Continuous Evaluation | | 10 |
| a) | Test Paper | 4 |
| b) | Practical Record and Submissions | 4 |
| c) | Viva-Voce | 2 |
| Total | | 25 |

Sample questions to Test Outcome

2 Mark Questions

1. What are the primary characteristics of tropical, temperate, and boreal forests?
2. Given a specific forest biome, predict the type of flora and fauna you would expect to find there and explain why.
3. Describe the differences in species diversity between tropical and temperate forests.
4. How does altitude affect the distribution and characteristics of forests?

6 Mark Questions

1. Discuss how biodiversity conservation in forests contributes to overall ecosystem health.
2. Analyze the relationship between soil conservation provided by forests and agricultural productivity in surrounding areas.
3. How does the availability of sunlight and water affect the distribution of species within a forest biome?

14 Mark Questions

1. Discuss how biodiversity conservation in forests contributes to overall ecosystem health.
2. Explain the role of forests in carbon sequestration and its impact on climate regulation.
3. Describe how watershed protection by forests benefits both the forest ecosystem and human populations.

Employability for the Course:

- Wildlife Biologist/Ornithologist
- Environmental Educator/Interpretive Guide
- Conservation Officer/Environmental Consultant
- Ecotourism Guide
- Research Technician/Field Assistant
- Citizen Science Coordinator

KU1DSCFOR103 INTRODUCTION TO WILDLIFE SCIENCES

| | | | Marks Distribution- Practical | | | |
| | | | 10 | 15 | 25 | |

Course Description: This course introduces the fundamental principles of wildlife science, including the study of wildlife ecology, conservation biology, and management practices. It covers the behaviour, population dynamics, and habitat requirements of various wildlife species, as well as the human dimensions of wildlife conservation.

Course Prerequisite: Basic knowledge in biology at 10th level.

Course Outcomes:

| CO No. | Expected Outcome | Learning Domains |
|--------|--|------------------|
| 1 | Define and explain key concepts in wildlife science, including ecology, behaviour, and conservation. | R |
| 2 | Describe the ecological roles and habitat requirements of various wildlife species. | U |
| 3 | Analyze the factors affecting wildlife populations and their dynamics. | An |
| 4 | Understand and apply the principles of wildlife management and conservation strategies. | A |
| 5 | Evaluate human impacts on wildlife and develop strategies to mitigate these effects. | E |

**Remember (R), Understand (U), Apply (A), Analyse (An), Evaluate (E), Create (C)*

COURSE CONTENTS

Contents for Classroom Transaction:

| M O D U L E | U N I T | DESCRIPTION |
|--|------------------|--|
| MODULE TITLE: Fundamentals of Wildlife Science (20 Hours) | | |
| 1 | 1 | Wildlife Science |
| | | a) Definitions and values of wildlife |
| | | b) Characteristics of wildlife in different biomes and zoogeographic regions of the world |
| | 2 | Behaviour of Wild animals |
| | | a) Instinctive behaviour, learned behaviour, dispersal behaviour, social behaviour, and reproductive behaviour |
| | | b) Clutch size and litter size and age of maturity |
| | | c) Territory, Home range and significance of territory |
| | 3 | Adaptations of wild animals |
| | | a) Aestivation, hibernation, torpor and diapause |
| | | b) Predator avoidance – camouflage, mimicry and schooling |
| MODULE TITLE: Mammalogy and Indian mammals (20 Hours) | | |
| 2 | 1 | Characteristics of class mammalia |
| | 2 | Classification of mammals and the detailed account on mammalian orders of Indian sub-continent: |

| | |
|---|--|
| | a) Primata, Carnivora, Proboscidea, Artiodactyla |
| | b) Rodentia, Chiroptera, Lagomorpha |
| 3 | Zoogeography of Indian mammals |
| MODULE TITLE: Herpetology (15 Hours) | |
| 3 | 1 Reptiles and Amphibians |
| | 2 Role of temperature in sex determination in reptiles |
| | 3 Identification of venomous and nonvenomous snakes |
| | 4 Snake bites, Venom, Anti-venom, First Aid and Management of snake bite cases. |
| MODULE TITLE: Conservation Strategies (15 Hours) | |
| 4 | 1 Conservation Principles |
| | a) In-situ and ex-situ conservation |
| | b) Endangered species and Endemic species |
| | 2 Conservation projects in India |
| | a) Project Tiger |
| | b) Project Lion |
| | c) Project Elephant |
| | d) Project crocodile |
| | 3 Causes of Extinction |
| | Teacher Specific Module(5 Hours) |
| 5 | <i>Prepare based on the current trends in wildlife science. Include human animal interactions and its implications</i> |

Sample questions to Test Outcome

2 Mark Questions

1. Differentiate between instinctive behaviour and learned behaviour in wild animals with examples.
2. What are the primary ecological roles of apex predators in an ecosystem?
3. Describe the term 'biodiversity' and explain why it is crucial for ecosystem stability.

6 Mark Questions

1. Discuss the symbiotic relationships found in coral reef ecosystems and their significance for marine life.
2. Explain the concept of carrying capacity and its relevance to wildlife management.
3. Describe the principles of in-situ conservation and provide examples of its application.
4. Analyze the impact of urbanization on local wildlife populations and their habitats.
5. Discuss the importance of community involvement in wildlife conservation efforts.

6. Explain how population viability analysis (PVA) is used in wildlife management.

14 Mark Questions

1. Analyze the effects of climate change on migration patterns and reproductive cycles of wildlife.
2. Develop a comprehensive plan to mitigate the impact of climate change on a specific wildlife species.

KU1MDCFOR104 ECOTOURISM

| Semester | Course Type | Course Level | Course Code | Credits | Total Hours |
|----------|-------------|--------------|--------------|---------|-------------|
| 1 | MDC | 100-199 | KU1MDCFOR104 | 3 | 45 |

| Learning Approach (Hours/ Week) | | | Marks Distribution | | | Duration of ESE (Hours) |
|---------------------------------|-----------------------|----------|--------------------|-----|-------|-------------------------|
| Lecture | Practical/ Internship | Tutorial | CE | ESE | Total | |
| 3 | 0 | | 25 | 50 | 75 | 1.5 |

Course Description: This course provides an in-depth exploration of ecotourism, focusing on its principles, objectives, and impact. Students will learn about the historical context of tourism, different forms and categories, and the classification and dimensions of tourism. Special emphasis will be placed on the principles of ecotourism, its potential in India, stakeholder roles, environmental and social impacts, and sustainable development practices.

Course Prerequisite:

- Ability to write examinations in English

Course Outcomes:

| CO No. | Expected Outcome | Learning Domains |
|--------|--|------------------|
| 1 | Recall the definition and historical evolution of tourism and ecotourism. | R |
| 2 | Discuss the potential of ecotourism in India and the role of various stakeholders. | U |
| 3 | Apply zoning and carrying capacity concepts to plan ecotourism in protected areas. | A |
| 4 | Analyze the environmental and social impacts of ecotourism on | An |

| | | |
|---|---|----------|
| | local communities and ecosystems. | |
| 5 | Design an ecotourism project plan, including marketing and business strategies | C |
| 6 | Evaluate the effectiveness of ecotourism initiatives in contributing to sustainable development | E |

**Remember (R), Understand (U), Apply (A), Analyse (An), Evaluate (E), Create (C)*

Sample questions to Test Outcome

2 Mark Questions

1. Define tourism and explain its primary components.
2. Trace the historical development of tourism from ancient times to the modern era.
3. What is ecotourism, and how does it differ from traditional forms of tourism?
4. Discuss the historical milestones in the development of ecotourism.

6 Mark Questions

1. Identify and describe key ecotourism sites in India.
2. Discuss the different forms of ecotourism practiced in India, highlighting examples of hard and soft ecotourism.
3. Analyze the roles of government agencies, NGOs, and local communities in promoting ecotourism in India.
4. What are the objectives of ecotourism, and how do they align with sustainable development goals in India?
5. Explain the impact of ecotourism on local economies and biodiversity conservation in India.

14 Mark Questions

1. Discuss the concept of zoning in ecotourism planning and provide examples of its application in protected areas.
2. Analyze the challenges and benefits of implementing carrying capacity limits in popular ecotourism destinations.
3. Develop a zoning plan for an ecotourism site, considering environmental, social, and economic factors.
